

Getting Started

1. The Res/Title Loan Estimate Calculator is an easy, accurate way to calculate closing costs for homebuyers. Just click on **“Get a Quote.”**

2. No need to remember a username and password.

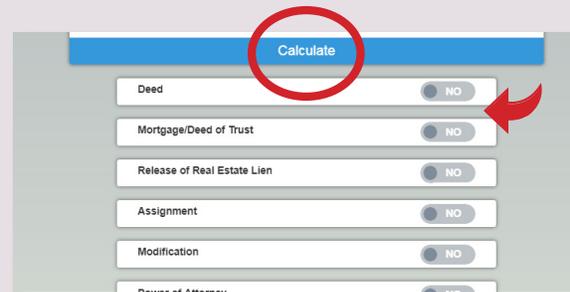

Just **enter your email** to gain access!

Entering Your Information.

3. Res/Title is **licensed in all 50 states**. Select the location, purchase price & loan amount.

4. Once you've selected your state and county, choose your township. If you don't see your township listed as an option, simply choose **“All Other Townships”** for an accurate quote. This means there is no specific tax for your town.

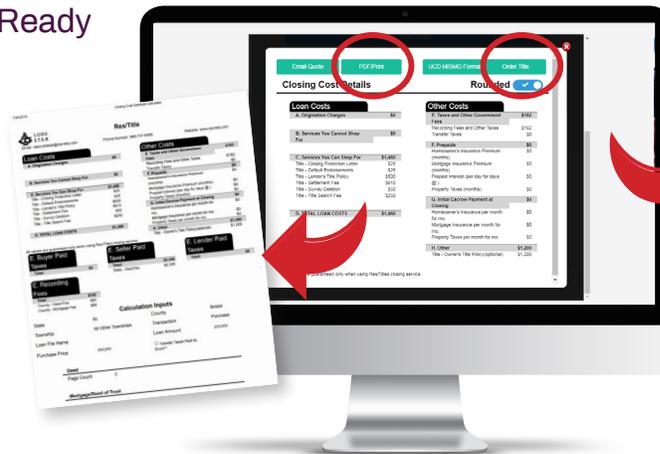

5. Res/Title can handle many types of transactions such as Purchases, Refinances, HELCO, Construction Loans and Title 1 Loans. Here, you will have the ability to **quote for each type of transaction**.

6. Enter the Loan Amount and Purchase Price. **Before calculating, scroll down and select the additional documents needed**, such as the Deed, Mortgage, or Subordination. Please choose carefully, as this will effect the amount of the quote. When you are ready, click “Calculate!”

Your Quote is Ready

7. With one-click to download, you can **easily email, print or save your quotes**. The calculator will provide title insurance premiums, recording fees and transfer taxes in Uniform Closing Dataset (UCD) format.

8. Click on **“Other Costs”** to see a **breakdown** of the Buyer, Seller and Lender Paid Taxes along with recording fees.

9. You can also securely **transmit title orders** by clicking the “Order Title” Fill out this form and upload your files. Fee information will be automatically added along with your order for our title agents to review.
